Wireframes: KhetiGaadi — New Tractor Buying Flow

Low-to-Mid Fidelity Wireframes — 4 Sequential Screens

Experiment 3 — UI/UX Design (CSE4PE43A)

Domain: Vehicles — Agricultural Machinery Marketplace (KhetiGaadi, khetigaadi.com)

Persona: Vikram Chauhan, 38 — farmer & part-time contract machinery operator, western Uttar Pradesh

Goal: Shortlist and compare new tractors within a ₹6–7 lakh budget before approaching a dealer

Student: Shashwat Nande (1032232121)

Home → Search Results → Model Detail → Compare & Enquiry Confirmation

HOW EACH SCREEN ADDRESSES THE GAPS IDENTIFIED IN EXPERIMENT 2

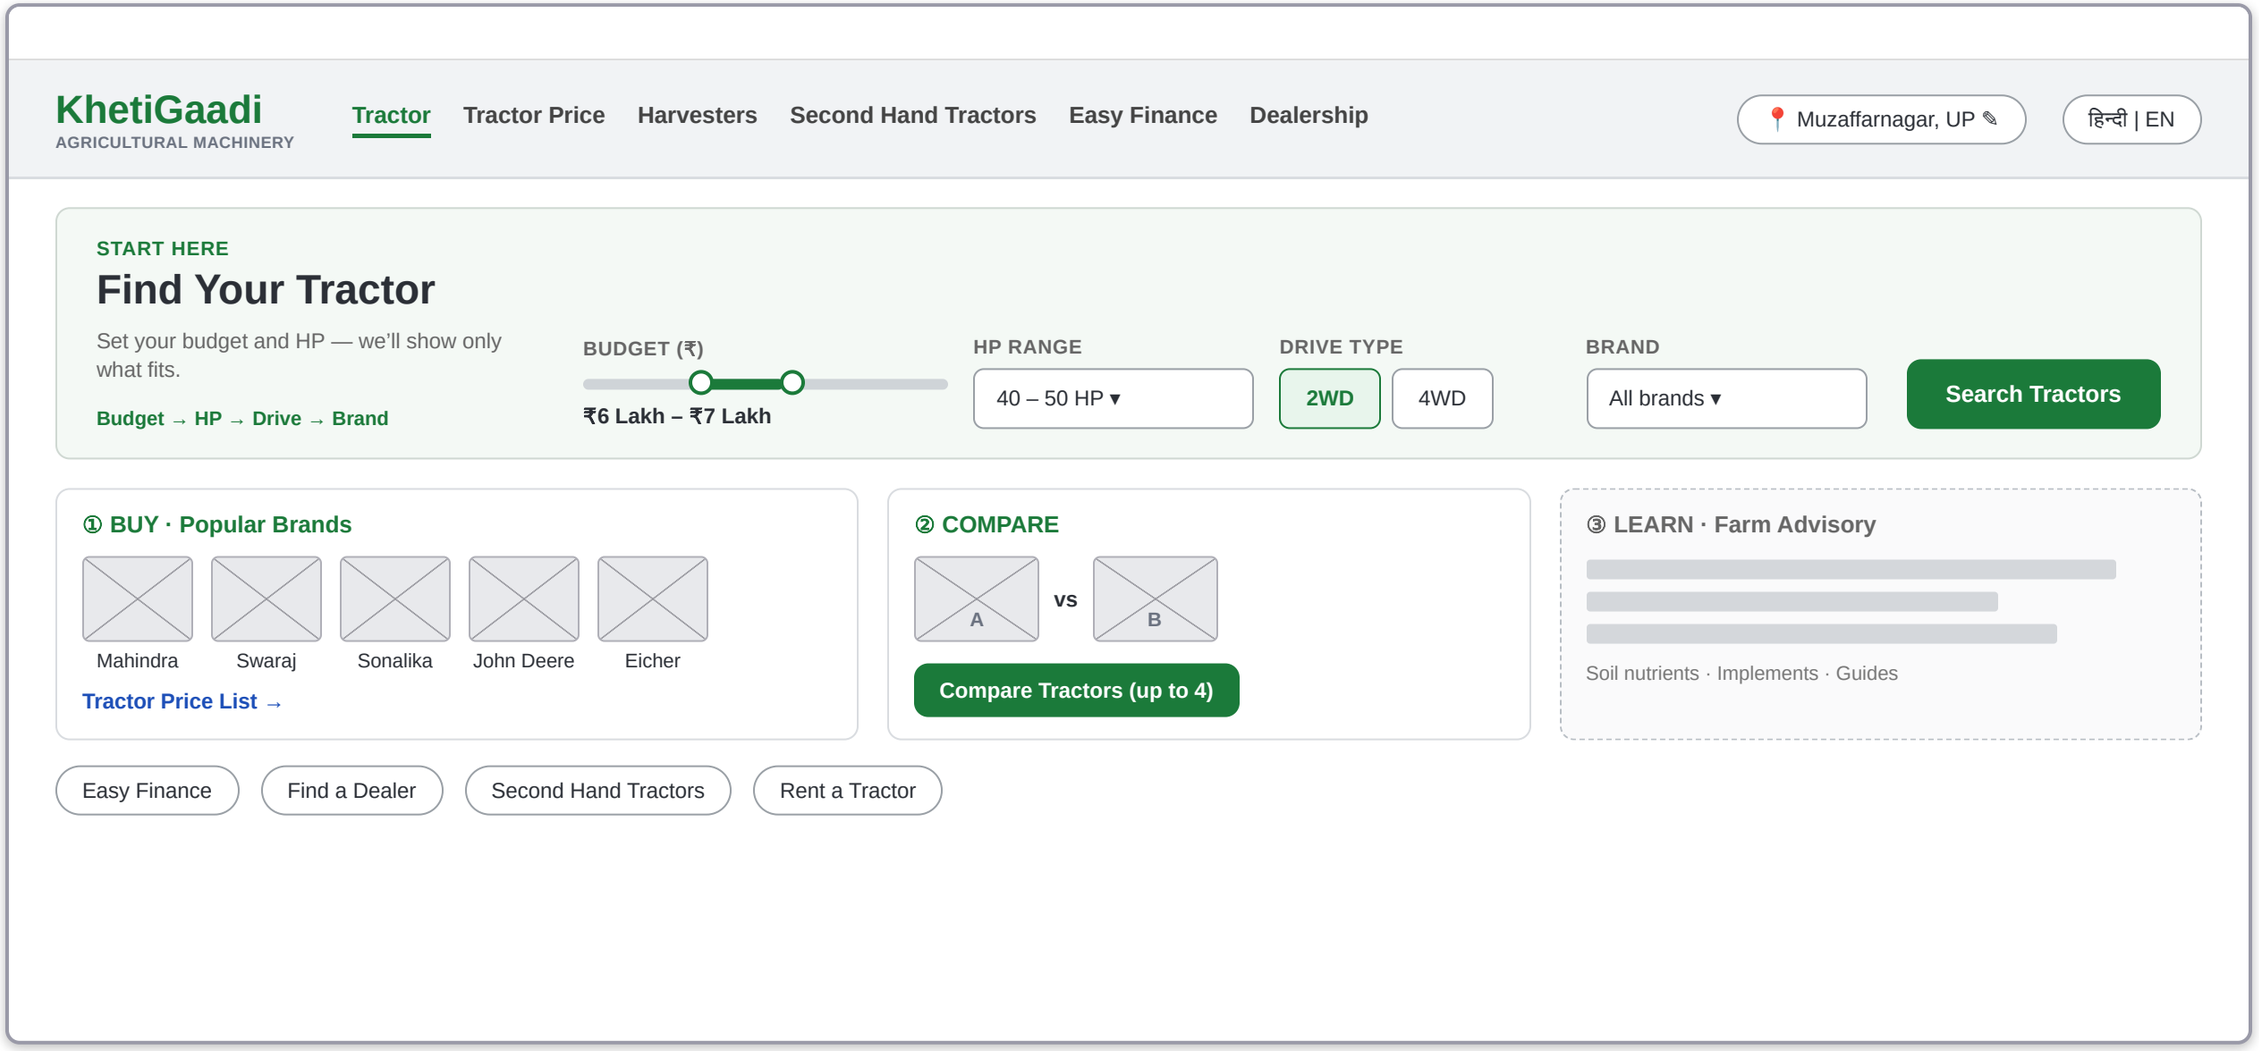

Gap from Experiment 1 & 2	Screen	Wireframe fix
Gap: Homepage mixes buying tools with unrelated content	**Screen 1**	“Start Here” search + Buy / Compare / Learn sections
Gap: Similar-looking results; no saved shortlist	**Screen 2**	Spec badges on cards, ☆ Shortlist, in-page filter reset
Gap: Spec table buried; on-road price, finance & dealers disconnected	**Screen 3**	Specs first, all-in price, model-linked EMI, dealers by model
Gap: No saved comparison; no enquiry confirmation	**Screen 4**	Save / share comparison, budget check row, enquiry tracker

Note: tractor names, prices, dealer names and EMI figures in these wireframes are illustrative placeholders for layout purposes only and are not taken from live KhetiGaadi listings. Proposed features (shortlist, all-in price, dealer-by-model, enquiry tracker) are design suggestions, not confirmed existing functionality.

Screen 1 — KhetiGaadi Home

Entry point: a single “Start Here — Find Your Tractor” search plus clearly separated Buy / Compare / Learn sections

1 khetigaadi.com

Budget / HP / drive / brand filters are surfaced on the homepage itself; commercial tools and farm-advisory content are separated by a visible boundary (solid vs dashed card) — addresses the homepage-clutter gap.

Screen 2 — Search Results & Shortlist

Filtered results with differentiating spec badges, shortlist stars, all-in cost and a compare tray
